

How does the member directory work?

The member directory allows OSAP members to search for fellow members located in their area or who share similar interests. To use the directory, follow these steps:

- Go to [Member Directory](#) .
- Apply the desired filters.
- Click **Search**.

OSAP members can opt in or out of their listing in the member directory at any time by updating their profile. [Click here to learn more about updating profile information.](#)
